

MY ONE PAGE PROFILE

Iain Turner (he/him)

Director of Governance, Risk & Assurance

What people appreciate about me...

- I communicate in clear, plain language. I can't stand management speak and don't hide behind it.
- I'm very organised and planned, and really appreciate it when colleagues are too.
- I meet my deadlines and will let you know if I won't.
- I will be honest, even if I disagree with you. But I'll do it politely.
- I love it when my team and colleagues suggest improvements to the way we do things. My way isn't always best - make it better!

What's important to me...

- Time spent outdoors and being active
- Being with family and friends, especially outside!
- Supporting my team!
- Good food
- My time and everyone else's - please don't waste it!

How to support me well at work...

- I have high standards, especially for written work. Do your best to meet them.
- When you have a problem you need help with, bring me your proposed solution too. I really enjoy supporting colleagues, but I don't want to spoon feed you!
- I answer questions best if I can read through the information and think - I might ask you to email me about something we just discussed - sorry!
- My hearing isn't great. So speak clearly and ideally have your camera on.
